Screen

Protective barriers to help prevent the spread of germs

Provide your employees and customers with a protective barrier to help prevent the spread of germs. Often referred to as sneeze guards, these screens are designed to integrate into reception, open plan offices and point of sale areas. Made from clear acrylic, these screens are easy to wipe clean and sanitize to help maintain a healthy environment. Several mounting options allow the screens to be easily secured and removed without damaging the existing furniture or used as a permanent fixture.
