

As the coronavirus (COVID-19) evolves, we are taking extra precautions to care for our Home Savings Bank family- our Employees and you. We are actively monitoring COVID-19 by staying close to the official guidance provided by the Center for Disease Control (CDC) , the World Health Organization and the Kentucky Bankers Association (KBA).

We're thinking of every touch point that our Customers may encounter while in the bank, and are taking the following pre-cautionary measures.

- We ask that you please hand the teller your transaction and take a step back to comply with the recommended Social Distancing of 6ft.
- Implemented enhanced cleaning and disinfection procedures for high-trafficked areas and Surfaces
- Employees are following rigorous handwashing procedures throughout their shift and interactions

We will continue to closely monitor this evolving situation, stay in close contact with health organizations and keep you updated on steps we're taking to care for our Home Savings Bank Family.
