

Foundations of Banking School

December 2 - 6, 2024 | Louisville, KY | KyBanks.com

 KBA EDUCATION ALLIANCE

WHERE BANKING EXCELLENCE BEGINS!

Who Should Attend?

The New Bank Employee

This individual may have a college background. However, they are new to the industry and will benefit from a program that introduces them to banking from a management perspective.

The Experienced Bank Employee

This individual is someone who has been with the bank for several years and has not had the time or opportunity for comprehensive bank training. This individual knows his or her job well but may lack knowledge of how the whole bank and financial system interact.

The Bank Employee on a Career Track

This individual is someone who plans to attend the KBA General Banking School but needs the prerequisite training courses in Accounting, Money and Banking, or Banking Fundamentals. Successful completion of the Foundations of Banking School satisfies these prerequisite requirements.

What You Learn.

Practical Exercises

The Foundations of Banking School consists of practical classroom sessions and exercises with a computer-generated bank simulation. The Foundations of Banking School curriculum walks the banker through the bank using the balance sheet and income statement as guides for understanding bank profitability.

Enhance Your Grasp

Several additional components have been added to the curriculum to enhance an individual's grasp of the material and to strengthen their ability to interact and relate to their peers, employer and the organization.

Foundations of Banking School serves as a prerequisite for our more advanced General Banking School.

**2025 GENERAL BANKING SCHOOL
JUNE 1-6, 2025**

Curriculum

Take your career to the next level!

THE BALANCE SHEET & INCOME STATEMENT ESTABLISHING A PERSPECTIVE

There are many ways to examine a bank and its performance. In this class, participants examine the various components of the balance sheet and income statement of a bank. The link between the balance sheet and income statement is analyzed and bankers will gain an appreciation of pertinent ratios, such as ROA and ROE, through application of the principles.

BANK BALANCE SHEET FINANCIAL ANALYSIS

This session focuses on bank capital - including its various components and purposes. Participants discuss the role of deposits and other sources of funds, such as Fed funds, FHLB funds, etc. The optimal mix of capital and liabilities will be covered with emphasis on maximizing the value of the bank.

MEASURING, EVALUATING, & ANALYZING PERFORMANCE

Bankers will gain knowledge on how a bank's performance is measured. They will learn key elements such as ROA, ROE, ROR, interest margin and the role of capital. Performance will also be considered from the perspective of the bank's responsibility to the stockholders, customers and its community.

COMPUTER BANK SIMULATION

The curriculum is enforced by the inclusion of a computer bank simulation. Participants work in the classroom to manage a bank in a simulated environment. The simulation illustrates the principles and concepts presented in the core curriculum and bankers end the school week with a presentation of their lessons learned. If you have a laptop or ipad available, please bring it with you.

To successfully complete the required course of study and graduate from the school, the following requirements must be met. Participants must:

- Attend all classes
- Complete all assignments
- Participate in all school activities
- Participate in all exams and achieve a passing grade
